### Travelling allowance

Rates per kilometre which may be used in determining the allowable deduction for business-travel, where no records of actual costs are kept are determined by using the following table.

VALUE OF THE VEHICLE (including VAT) (R)	FIXED COST (R p.a.)	FUEL COST (c/km)	MAINTENANCE COST (c/km)
0 - 40 000	14 672	58.6	21.7

80 001 - 120 000	39 928	62.5	24.2
120 001 - 160 000	50 749	68.6	28.0

#### Note:

The fixed cost must be reduced on a pro-rata basis if the vehicle is used for business purposes for less than a full year.

### Alternative to the rate table:

- Where the distance travelled for business purposes does not exceed 8 000 kilometres per annum, no tax is payable on an allowance paid by an employer to an employee up to the rate of 292 cents per kilometre, regardless of the value of the vehicle.
- This alternative is not available if other compensation in the form of an allowance or reimbursement is received from the employer in respect of the vehicle.

The actual distance travelled during a tax year and the distance travelled for business purposes substantiated by a log book are used to determine the costs which may be claimed against a travelling allowance.

80% of the travelling allowance must be included in the employee's remuneration for the purposes of calculating PAYE.

### Other deductions

Other than the deductions set out above an individual may only claim deductions against employment income or allowances in limited specified situations, e.g. a bad debt in respect of salary and premiums on certain income protection policies.

### Fringe Benefits

#### Employer-owned vehicles

- The taxable value is 2,5% of the determined value (usually the cash cost excluding VAT) per month. Where a second (and further) vehicle is made available to an employee or his family, and the vehicle is not used primarily for business purposes, the benefit is 2,5% per month on the vehicle with the highest value and 4% per month on the other vehicle(s).
- Where the employee bears the cost of all fuel used for the purposes of the private use of the vehicle (including travelling between the employee's place of residence and his/her place of employment) the monthly percentage to be applied is reduced by 0,22 percentage points.
- If the employee bears the full cost of maintaining the vehicle (including the cost of repairs, servicing, lubrication and tyres) the monthly percentage to be applied is reduced by 0,18 percentage points.

#### Interest-free or low-interest loans

The difference between interest charged at the official rate and the actual amount of interest charged, is to be included in gross income.
